

CORPORATE BACKGROUNDER

About Morgan Manufactured Solutions

Morgan Manufactured Solutions is the one-stop source for machined components – the critical parts that keep businesses running. An ISO and AS-certified Master Distributor of raw material in copper-based alloys, Morgan Manufactured Solutions (MMS) offers finished products in bronze, stainless, cast iron, aluminum, Toughmet®, Beryllium Copper and carbon steels. MMS manages the entire manufacturing process, including heat treating, spray and laser coating, plating and machining, with advanced automation to deliver finished parts in 30 percent less time. Learn more by visiting www.MorganManufacturedSolutions.com.

SOLUTIONS

- Expert engineers and metallurgists assist with entire manufacturing process
- Computer-controlled precision machining, including turning, milling, grinding, lapping and EDM, with rigorous inspection tools and calibration systems
- Inventory management – shelf replenishment and stocking services from Kanban quantities to daily deliveries
- Extensive metals warehouse offering quick and affordable access to the most unique alloys and sizes
- ISO 9001 and AS 9001 certified

KEY INDUSTRY COMPONENTS

- Aerospace
- Hydraulics and Pneumatics
- Commercial / Heavy Equipment
- Pumps, Valves & Actuators
- Oil and Gas
- Power Transmission Distributors & MRO Requirements
